## Graduate Certificate Program

### **Logistics and Supply Chain Management Graduate Certificate**

#### ***Creating Value for the Organization***

Logistics and Supply Chain Management – vital links in the creation of value for an organization. Individuals involved in this dynamic and challenging profession are in high demand both in Canada, and around the world. Fanshawe offers two programs in Logistics and Supply Chain Management, a two year diploma in Purchasing (4 semesters) with a co-operative education option, and a one year Graduate Certificate program (2 semesters).

The Graduate Certificate Program is a two semester program with curriculum covering theory and application of logistics and supply chain management that can be applied in both the private and public sectors. The program relies heavily on the case analysis method to expand the strategic and critical thinking skills that employers are demanding. Courses address sourcing of goods and services; transportation; inventory management; distribution; and negotiations. Students will develop excellent communication and analytical skills within the program.

Our program can be used to apply for registration into several professional Supply Chain Associations offering designations. Our graduates have the skills needed to add great value to the operations of any organization and have been very successful at securing employment within a variety of industries.

#### **Admission Requirements – Graduate Certificate Program**

- Minimum GPA of 2.5
- A College Advanced Diploma or
- A College Diploma or
- A University Degree or
- Acceptable combination of related work experience and post-secondary education as judged by the College or
- Five years of work experience in the Supply Chain Management field as judged by the College to be equivalent.
- English language proficiency requirements as per College policy.
